Orchids

for the . . .

BEGINNER

AMATEUR

CONNOISSEUR

Foreword

WE know of no group of plants which has undergone such changes as orchids have during the past ten years. We feel that this is due to the great quantities of hybrids which have been produced by orchid growers the world over. To keep a collection up to date, it must be supplemented every year with new plants; otherwise, after a period of a few years a collection is far behind the times.

A SIMPLE way to keep a collection up to date is to purchase a few new seedlings of the finest crosses every year and dispose of a few of the poorest of the mature plants.

ORCHIDS, like people, differ. With plants, however, the Horticulturist is able to control the variation to a degree and by the use of certain proven parents can predetermine the variations—shape or form of flower, color, and many other hereditary factors.

THE amateur grower should bear in mind the great importance of selecting orchids which represent, generically, the traits which he desires in flowers. As we have pointed out so many times before, poor orchids require the same time to produce as good ones; therefore, do select your orchids cautiously, so that you can be proud of your plants when they bloom.

THE hybrids which we offer represent the finest and are the results of the work of the leading hybridists of the world. The parents used in these hybrids were carefully selected for outstanding qualities. And we believe that the merit of the resulting flowers will bring you many hours of enjoyment.

WE have tried to give you a brief description of what may be expected as to color and season of flower; however, it is difficult to describe accurately the color variations that may be expected in a fine orchid hybrid, since they cover such a wide range.

THE beginner is often confused as to the selection of plants which are suited to his given growing conditions; if we can be of assistance in any way in making your selections, we'll gladly help.

1955 CATALOG

JONES AND SCULLY, INC.

2154 N. W. 33rd AVENUE — MIAMI 42, FLORIDA

CATTLEYAS AND ALLIED GENERA

(UNFLOWERED)

LAVENDAR WHITE WITH COLORED LABELLUM WHITE

We offer the following crosses as unflowered seedlings. Plants in 3½" pots will flower in about a year, while those offered in 5" pots are in sheath or will make a sheath on the next growth. This is an opportunity to buy outstanding hybrids in large sizes, yet have the pleasure of seeing them flower for the first time.

You will note that we have indicated some hybrids to be "light controllable." This means that by the use of additional light plants may be flowered at times different from their normal flowering season.

In some instances we may be sold out of a given size and ask that you designate a second choice or give us permission to substitute a cross of equal quality.

PHYLLIS S. ROSKIN CARING FOR OUR FINE STOCK OF SELECTED SEEDLINGS

NO. 193 BC. TRILAND (C. Trianaei x Bc. Hartland)

Bc. Hartland is a proven parent and combined with C. Trianaei should produce fine flowers for the Christmas season.

3½"—\$6.00

5"—\$12.50

NO. 269 LC. SPRATT MANGUS (Lc. Tegucigalpa x C. Trianaei)

Lc. Tegucigalpa is one of the fine modern hybrids and here again is a cross which was made for Christmas flowering. Fine grower, nicely-shaped flowers.

3½"—\$6.00

5"—\$17.50

NO. 280 BLC. MIAMI (Lc. Dr. Walter Jones x Bc. Hartland)

All of the seedlings of this hybrid that we have flowered have been dark and of good form. This hybrid has excellent parentage and we are confident that this will be one of the outstanding crosses. Season, winter.

3½"—\$8.00

5"—\$17.50

LC. DR. WALTER JONES

NO. 313 C. MARGARET VICTORIA (C. Raphaelaurea x C. gigas, Frau Melanie Beyrodt)

A fine white flower with colored labellum. Yellow eyes in the throat of the labellum add greatly to the beauty of the flower. Season, fall and early winter.

3½"—\$6.00

5"—\$15.00

NO. 314 BLC. COLLETT EVERMAN WOOLMAN (Lc. Princess Margaret, Stonehurst x Blc. Ishbel)

The color has varied from light to very dark, but all flowers have been exceedingly fine. Flowers are large, of good substance, and have a large dark labellum. Season, winter.

3½"—\$6.00

5"—\$15.00

NO. 315 LC. CLARA SCHREIVER (C. Raphaelaurea x Lc. Jane Dane)

Similar to cross No. 313. Judging from the group of plants which we have flowered from this cross, all indications are that this will be an outstanding hybrid. Season, fall to winter.

3½"—\$8.00

5"—\$17.50

NO. 317 BLC. DAWN ANGELA X C. TRIANAEI, A. C. BURRAGE

A fine, medium-light hybrid. The shape of this flower should be excellent and some Exhibition blooms can be expected. We know of no finer variety of C. Trianaei than A. C. Burrage. Season, December-January.

3½"—\$6.00

5"—\$15.00

NO. 337 BLC. DAWN ANGELA X C. MENDELISSIMA

Flowers are large, light in color and of excellent form. Labellum dark. A fine fall-flowering hybrid.

5"—\$15.00

NO. 338 BLC. WAGNETTE (Blc. Nannette x C. Mossiae, Wagereri)

When some of these plants started to flower last fall we enjoyed them in all white, white with colored labellums and a few in lavender.

5"—\$15.00

NO. 340 LC. PRINCESS MARGARET, BONYCREST X LC. MIRANDA

We have not flowered this hybrid as yet, but from its growth habits it looks very promising. We expect it to be variable in color, perhaps even some bronze shades. Season, winter.

3½"—\$8.00

5"—\$17.50

NO. 345 LC. KISMET QUEEN (Lc. Princess Ishtar, Hawaiian Queen x Lc. Kismet, rotunda)

Outstanding hybrid. Round, compact flowers of exceptionally heavy substance. Medium-dark color. Season, winter.

3½"—\$8.00

5"—\$20.00

NO. 346 LC. JANE FROMAN (C. Alwynii Jane Froman x Lc. Hassalli, Cowan's Var., F.C.C.R.H.S.)

Two fine parents were used in this hybrid. Plants are good growers. White sepals and petals with solid-colored labellum. Season, winter.

3½"—\$6.00

5"—\$15.00

NO. 370 C. JOYCE HANNINGTON, PERFECTION X BLC. NANETTE

Few white hybrids equal the quality of C. Joyce Hannington. It has been outstanding wherever it has been flowered. Some flowers developing from this hybrid may come with a blotch of color in the labellum, or it may produce all-white flowers. We expect the C. Joyce Hannington parent to contribute some of its excellent form to the offspring. Season, Dec.-Jan.-Feb.

3½"—\$6.00

5"—\$12.50

NO. 466 C. SPINDRIFT (C. Ville de Liege x C. Brussels, alba)

A vigorous grower, producing an abundance of large flowers during the fall season. Flowers are white with colored labellums. (Light Controllable)

2½"—\$2.50

3½"—\$6.00

NO. 467 BC. MME. BRASSEUR HYE, SUPERLATIVE GOOD X LC. JOSEPH HAMPTON

Lc. Joseph Hampton is a fine dark flower, and we have great faith in this new hybrid. Some flowers should have flares in the petals. (Light controllable)

2"—\$1.50

2½"—\$2.50

3½"—\$6.00

NO. 468 LC. JOSEPH HAMPTON X C. PEETERSI, FINE DARK

This superior strain of C. Peetersi will undoubtedly tend to make a fine dark hybrid with Lc. J. Hampton as the other parent. Season, fall. (Light controllable)

3½"—\$6.00

NO. 469 BLC. CHIEF JOSEPH X C. AMBABILIS

This cross was made with the thought that the yellow Blc. Chief Joseph would make a very dark flower. (Light controllable)

2"—\$1.50

2½"—\$2.50

3½"—\$6.00

NO. 473 C. ANNE CLAUDE (C. amabilis, Fine var. x C. labiata, Best var.)

Two excellent strains that will produce fine dark flowers. We believe that the C. labiata used is among the best available today. (Light controllable)

2"—\$1.50

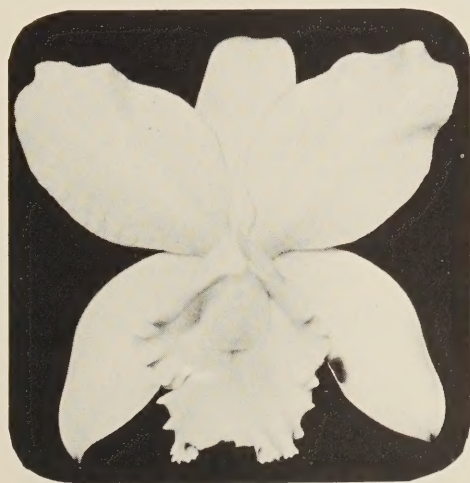

2½"—\$2.50

NO. 485 C. BARBARA BILLINGSLEY, PERFECTA X C. BEBE WHITE, MAJESTICA

Fine, well-shaped, large, white flowers. Heavy producers. Season, winter.

2"—\$1.50

2½"—\$2.50

CROSS NO. 488

**NO. 488 C. O'BRIENIANA, ALBA
X C. LODDIGESI,
STANLEYI, F.C.C.**

A small, heavy-textured white flower may be expected. These small flowers are winning many new friends. Keeping qualities are outstanding. Plants are bifoliate. Season, winter to spring.

3½"—\$8.00

NO. 489 LC. LINNAEUS T. SAVAGE X C. GLORIETTE, SUPERBA,
F.C.C.R.H.S.

Two fine proven parents. This cross should produce dark flowers and Exhibition quality may be expected. Season, fall.

2"—\$1.50 2½"—\$2.50

NO. 491 LC. KISMET, ROTUNDA X LC. H. G. ALEXANDER, F.C.C.

Two superlative parents have been used to make this cross. Both are outstanding for color as well as form. Plants are slow in growth, but unquestionably, they will produce many show flowers. Season, early winter.

2"—\$2.00

NO. 523 C. ENID, METEOR X C. OLD FORESTER

C. Enid, Meteor is a fine, dark form of C. Enid. (C. gigas var. Meteor was used to make this parent.)

C. Old Forester is a fine flower of heavy substance. Both parents bloom more than once a year. Season, late fall, again in winter.

2"—\$1.50

NO. 528 BLC. MENDABILIS, ROTUNDA X LC. ALTEN

Both parents are winter flowering hybrids of fine quality. Offspring should be dark and have good substance.

2"—\$1.50

NO. 544 LC. LYDIA JOHNSON X LC. MIAMI

These parents should produce hybrids of good quality for Easter season. Lc. Lydia Johnson is a large flower and a heavy producer. Lc. Miami is well known for its dark, fine-shaped flowers. Season, spring.

2"—\$1.50

NO. 550 LC. FLORALIES X BLC. CANARI

We are flowering some of these hybrids for the first time this spring and they are showing some fine promise. Flowers are mainly dark and of good substance. A few yellow flowers may appear. Season, spring. Unflowered,

5"—\$15.00

NO. 562 C. BARBARA BILLINGSLEY X C. WHITE EMPRESS

A fine white cross to flower during the winter season.

2"—\$1.50

2½"—\$2.50

NO. 563 C. SNOWDEN X C. BARBARA BILLINGSLEY

We expect a fine white offspring. Season, winter.

2"—\$1.50

2½"—\$2.50

NO. 564 C. BARBARA BILLINGSLEY (C. Bebe White x C. Trianaei,
Broomhill's)

This cross has proven to be one of the finest white hybrids. Season, winter.

2"—\$1.50

2½"—\$2.50

LC. SOUTH ESK, JUDY DOIG, F.C.C.
A.O.S., 1951

NO. 565 LC. TEGUCIGALPA X
LC. SOUTH ESK, JUDY
DOIG, F.C.C.A.O.S.

We feel this hybrid has a wonderful future. Both parents are of fine quality and should produce outstanding, Exhibition-type flowers. Season, winter.

2"—\$1.50

NO. 582 BLC. CHIEF JOSEPH X C. LABIATA, WESTONBIRT

Commercially this should produce a wonderful hybrid as the flowering can be controlled. Hybridizing this fine yellow with the best variety of C. labiata should produce very dark flowers.

2"—\$1.50

LC. FRANK LIND, ORCHIDGLADE,
A.M.A.O.S., 1954

NO. 609 LC. FRANK LIND X C.
MOSSIAE

Lc. Frank Lind is one of the finest shaped hybrids of present day; it is dark in color and of wonderful quality. Crossed with C. Mossiae should produce a free-flowering hybrid of fine form and color. Season, spring.

2"—\$1.50

- NO. 626 (C. EMILY SCHILL X C. LADY VEITCH) X C. BOW BELLS
Bow Bells crosses are among the finest of the white flowers today. This cross will produce excellent flowers for spring and early summer.

2"—\$1.75

- NO. 680 BLC. NANETTE X C. ENID, ALBA
Blc. Nanette has produced some of the fine, modern hybrids. This parent always contributes heavy substance and size to its offspring. C. Enid, alba is one of the most free-flowering whites with colored labellum. The combination of these two parents should produce fine WCL's for winter season.

2"—\$1.50

YELLOW SEEDLINGS

- NO. 445 (LC. CAPRICE X C. DOWIANA) X BLC. MORNING SUN
The flowering season will be spring or early summer. Flowers are expected to be yellow with rose-colored labellums.

2½"—\$5.00

- NO. 477 (C. ROBERT H. JEWELL X L. TENEBROSA, WALTER GRANGE) X C. MRS. ED. ROEHRS

This hybrid is certainly worth a chance, if you want yellows. Season, winter.

2"—\$2.00 2½"—\$4.00

- NO. 599 LC. APRICOSA X LC. HENRIETTA J. DANE
Two fine yellows. The fine Hardyana-type labellum should predominate in the offspring.

2"—\$2.00

- NO. 604 BLC. LUCY FARFAN X BLC. PEACE
Expect yellow flowers to bloom during mid-winter.

2"—\$2.00

LC. GEO. LEWIS, ORCHIDGLADE,
A.M.A.O.S., 1954

EXHIBITION PLANTS

If you are interested in exhibition plants—many of which have received awards — we will be glad to send you a list of the divisions which are available.

SPECIAL OFFERS

2" SEEDLINGS

One each of ten crosses — our selection

\$12.50

This exceptional offer is possible only because we have an insufficient quantity of the individual crosses to advertise them by parentage.

2½" SEEDLINGS

5 Plants—our selection, one plant of a cross—

\$10.00

10 Plants—our selection, not more than two plants of a cross, or, we will send only one of each cross if you so desire—

\$19.00

5" SEEDLINGS

Cross No. 269 LC. SPRATT MANGUS

Cross No. 370 C. JOYCE HANNINGTON, PERFECTION
X BLC. NANETTE

Cross No. 337 BLC. DAWN ANGELA X C.
MENDELISSIMA

Cross No. 338 BLC. WAGNETTE

One each of the above unflowered seedlings in sheath

\$50.00

CATTLEYS AND ALLIED GENERA

FLOWERING SIZE PLANTS

Our orchid collection consists of a large variety of hybrids too numerous to mention. We are listing a few of our fine hybrids and have selected those that represent a wide range of types as well as colors. If there is a particular hybrid you are interested in obtaining, please write us; if we do not have it, perhaps we can help you to secure it.

Plants differ in size, although pot sizes may be the same, and quality of course, is also a factor; therefore, we have indicated a fair spread in price for evaluation of size and quality. These plants are all divisions of our flowering plants.

CHARLES P. SLOCUM SHOWN IN THE HOUSE OF FLOWERING-SIZE HYBRIDS

LC. SARGON (Lc. Lustre x C. Hardyana)

A very fine, floriferous Cattleya. Habit of growth is similar to *C. gigas* in that it requires good light for best flowering. Labellum very dark. May-June.

\$20.00

NO. 19 C. NELL MONTGOMERY (C. Gaskelliana, alba x C. Ben Nevis)

A fine winter producer; plant "breaks" very freely, so fine specimen plants are possible in small pots. Flowers are white with yellow throats.

\$10 — \$20

C. MARIAN FAIRCHILD

NO. 27 C. MARIAN FAIRCHILD
(C. Eleanore x C. Loddigesii, violacea)

A fine bifoliate Cattleya. Flowers borne on heavy stems, have beautiful dark lips. We have had as many as 14 flowers to the stem. We are offering a few divisions of this hybrid. (See cover photo of June 1953 issue of A.O.S. Bulletin). Spring, summer and fall.

\$25.00

NO. 31 C. DAVID FAIRCHILD (C. Dupreana x C. Loddigesii, violacea)

A lovely bifoliate Cattleya; excellent producer and vigorous grower. Spring, summer and early winter, generally flowers twice a year.

\$25.00

NO. 43 C. OLD FORESTER (C. Charybdis x C. Enid)

A heavy-textured flower of good form and heavy substance. Flowers are large and vary from light lavender to medium-dark mauve. One of the lovely new hybrids. Prefers strong light for best flowering.

\$25 — \$40

NO. 45 C. MAUREEN ORCUTT (C. Lady Alexander, alba x C. Royal Harold, alba)

A nice white with colored lip to flower during the fall season. Plant is compact and short growing, yet is a good producer.

\$20.00 up

NO. 59 C. ENID, ALBA (C. Mossiae, Reineckiana x C. gigas, F.M.B.)

Exceptionally floriferous. Beautiful, large orchids with white sepals and petals, mottled purple lips. A "must" for any collection. Excellent grower. Winter.

\$15 — \$25

NO. 74 LC. ALMA ISHIZAKI (Lc. Areca, Model x Lc. Hertha)

A wonderful large, dark flower, characteristic of its parents. Good shape and good producer. Fall and early winter.

\$35 . up

NO. 75 LC. FRANCES LIBERACE (Lc. Areca, Model x Lc. Princess Margaret)

A Princess Margaret hybrid of outstanding quality; flowers are dark and well shaped; often flowers twice a year; very vigorous grower, Fall and winter.

\$50 . up

NO. 76 LC. WALTER WINCHELL (C. Tappan x Lc. Dupresan)

Fine, dark flower with beautifully-colored yellow throat; well shaped and fine producer. Fall and Winter.

\$25 . up

NO. 111 C. FLORENCE PATTERSON (C. Rita Sladden x C. Clementine Goldfarb)

This is one of the large, white-flowering orchids for late winter and early spring. Good producer and strong grower.

\$20 . up

LC. JAY MARKELL var. SAM SHARPE,
A.M.A.O.S., 1953

NO. 112 LC. JAY MARKELL (Lc. Cynthia, F.C.C.R.H.S. x C. May Markell)

A fine hybrid; white sepals and petals with dark labellum. One of the best of the whites with colored lips. Winter.

\$25 — \$40

NO. 113 LC. IMPERIAL SUGAR (Lc. Hilary F.C.C.R.H.S. x C. Mt. Royal)

Floriferous and a good grower. Medium-dark, lavender flowers for winter to spring.

\$25.00

NO. 114 LC. MARIE WEBB (C. Nutley, alba x Lc. Mab)

A large, fall-flowering white with colored labellum; beautiful gold-veined throat with dark markings on the tip of the labellum.

\$20 — \$35

NO. 123 C. MARION DAVIES (C. Edithiae x C. Gravesiana, alba)

A good producer of white flowers for winter.

\$15.00

NO. 135 BLC. MARION RYERSON (Lc. Linnaeus T. Savage x Bc. Hartland)

One of the modern hybrids of Bc. Hartland, which is proving to be a fine new parent. Flowers are dark and of heavy substance. In our climate we flower most of these plants twice a year. Fall-winter.

\$25 — \$50

**BLC. MARION RYERSON VAR.
HOMESTEAD**

NO. 137 BC. MARTHE GRATIOT X LC. PENSHURST

Large, cream to chartreuse-colored, Brasso-type flowers of heavy substance; plants produce 2-3 flowers per lead. Vigorous grower; large plants. Fall and winter.

\$25 — \$30

NO. 180 BLC. BISCAYNE BAY (Bc. David Adams x Lc. Hertha, F.C.C.)

A new hybrid of recent introduction; outstanding for its dark, well-shaped flowers. Winter.

\$25 . up

NO. 184 BLC. DOROTHY JONES (Blc. Nanette x C. White Empress, F.C.C.)

A Nanette cross which has proven to be a fine hybrid for fall and early winter blooming. We have many fine forms all the way from pure whites to whites with colored lips. August to December.

\$25 . up

NO. 187 BLC. HOLLYWOOD (Lc. Mrs. Hanmer x Bc. David Adams)

A fine, dark flower of heavy substance and wonderful texture. Winter.

\$25 . up

NO. 199 LC ROBERT DOIG (C. Belgica, Robert Doig x Lc. Titymoma, supreme)

This is a fine hybrid for the grower who prefers medium-sized flowers of fine shape. A wonderful producer and a vigorous grower, small plants often producing 10-12 flowers at a time. Winter.

\$20 . up

NO. 269 LC. SPRATT MANGUS (Lc. Tegucigalpa x C. Trianaei)

A nicely-shaped flower of mauve color for the Christmas and New Year's season.

\$17.50 up

NO. 312 C. BARBARA DANE X BLC. NANETTE

This cross has produced some of the finest whites with colored lips that we have for fall flowering. The color patterns and all of the lips seem to be different. September-December.

\$25 up

NO. 605 POTINARA NEGRITA (Blc. Negresco, ardens x Slc. Ramona, orangina)

A small-sized flower with tremendous color variation. (A Potinara is a hybrid made up of Brasso, Laelia, Cattleya and Sophronitis.) Winter.

\$25 up

SPECIAL OFFER

A SELECTION OF FOUR, FINE, FLOWERING-SIZE HYBRIDS:

LC. SARGON

LC. MARIE WEBB

C. NELL MONTGOMERY

SEED - FLASKS - COMMUNITY POTS

From time to time we do have lists of seed, flasks and community pots to offer. If you would be interested in these offerings, please send us a postcard and we will be glad to add your name to our list.

Watch our Advertisements in the

American Orchid Society BULLETIN

as we will have new hybrids to offer throughout the year at Special Prices.

BE SURE TO LOOK OVER

ALL the pages of our orchid catalog!

We grow so many fine plants of so many different genera that we could not possibly list them all. We invite your correspondence when you have something particular in mind, for we feel sure that we can help you with your needs and on any growing problems you may have.

OUR COLLECTION INCLUDES:

Angraecums
Brassavolas
Cattleyas
Cycnoches
Diacrums

Cypripediums
Dendrobiums
Epidendrums
Oncidium
Peristerias
Laelias

Phaius
Phalaenopsids
Rodríguezias
Vandas
Vanilla

CYPRIPEDIUMS

The *Cypripediums* ("Lady Slipper Orchids") are easy to grow. Their magnificent flowers of brown, rose, green and red colors will last for several months in perfection.

Cypripediums offered here prefer a temperature of 60° F. or more. They do not like strong light and will do better if given a shaded location with 800 - 1200 ft. candle light. They can be grown well in conjunction with *Phalaenopsids*.

Cypripediums like plenty of humidity and are benefited by light syringings of water overhead. Applications of bonemeal and lime are advantageous. Plants may be divided and repotted after they flower.

CYP. ASHBURTONIAE VAR. SUPERBA (*Cyp. barbatum* x *Cyp. insigne*),
flowering size

A brown *Cypripedium*; flowers are borne on long stems, a nice plant to flower in fall.

\$15.00

CYP. BINGLEYENSE (Low's strain) (*Cyp. Charlesworthii* x *Cyp. Harrisianum*),
flowering size

A dark red type, flowering during early winter. Good for the Christmas Season.

\$15.00

CYP. HARRISIANUM (*Cyp. barbatum* x *Cyp. villosum*), flowering size

Brown colored *Cypripedium*, flowering during winter.

\$10.00

CYP. INSIGNE VAR. SANDERI Species Annam

Honey-yellow in color. Dorsal-sepal white margined with a few minute brown spots at the base. 4" pot.

\$7.50

CYP. MAUDIAE VAR. MAGNIFICUM (*Cyp. callosum*, *Sanderae* x *Cyp. Lawrenceanum*, *Hyeatum*), flowering size

This is perhaps one of the favorites in the entire group of *Cypripediums*. A beautiful shade of light green. The dorsal sepal is white with light green lines. Flowers during various seasons of the year.

\$15.00

CYP. MOREAUANUM (*Cyp. callosum* x *Cyp. superciliare*), flowering size

A good-size flower of beautiful coloration. Dorsal sepal is white with green veinations and a suffusion of pink to lavender in the ventral sepals. Dark spots on ventral sepals.

\$15.00

CYP. NEREID (Cyp. Alma Gevaert x Cyp. callosum), flowering size

Another fine green Cypripedium, flowering during the winter season. A good green for St. Patrick's Day flowering.

\$15.00

CYP. AUROBE (Cyp. aureum, O'Edippe x Cyp. Niobe) 5" pots

A fine, productive hybrid that flowers during the Christmas season in the Miami area—further north, often grown to flower for Valentine's Day. White dorsal, mahogany petals and pouch.

\$17.50

CYP. AUREUM VAR. SURPRISE (Cyp. nitens x Cyp. Spicerianum) 5" pots

A yellow and white hybrid for the Easter Season in cool climates. In the Miami area, this Cyp. flowers during January and February.

\$17.50

CYP. EMERALD (Cyp. Curtisii, Sanderae x Cyp. Maudiae) 5" pots

Finely-mottled leaf; green and white flowers.

\$17.50

CYP. ALMA GEVAERT (Cyp. Lawrenceanum, Hyeantum x Cyp. Maudiae) 5" pots

A nice form of green and white; distinct shape from Maudiae.

\$17.50

COLLECTION OFFER

Cyp. Harrisianum

Cyp. insigne, Sanderae

Cyp. bingleyense, Low's var.

Cyp. T. B. Haywood

Cyp. Morganiae

One each of these five, flowering size Cypripediums for \$35

DENDROBIUMS

This genus contains some of the finest of the spray orchids. They are of easy culture, although one must be aware of the particular requirements of each species in order to be successful in flowering them.

Dendrobium phalaenopsis and all of its varieties should be grown in the Cattleya house and given as much sun as possible without burning the foliage. Give the plants plenty of water when they are growing. When not in growth, withhold some of the water and give only enough to keep the plants from shriveling. Weak applications of liquid fertilizer are advantageous when the plants are in growth.

D. PHALAENOPSIS VAR. DELIGHTFUL

Flowers very light; background white with less intense coloring than the variety "delicata". Sept.-Jan. Flowering size.

\$15.00

D. PHALAENOPSIS VAR. DELICATA

An evergreen type of *Dendrobium*. Flowers are produced on sprays from the terminal end of the long canes. Background white with lavender to purple suffusion on sepals and petals. Season, Sept.-Jan. Flowering size.

\$15.00

D. PHALAENOPSIS VAR. SCHROEDERIANUM (Dixon's variety)

The finest variety of colored *D. phalaenopsis* we have ever seen. Extremely dark flowers; in some cases the sepals are tipped with white, making a beautiful contrast. Canes grow to 8 feet in height and produce sprays of over 20 flowers, lasting for weeks. Our stud plant has produced as many as 10 sprays of flowers in a season. An excellent plant for use as decoration or cut flowers. Sept.-Jan.

5"—\$15.00

DENDROBIUM PHALAENOPSIS

D. LOUIS BLÉRIOT (*D. superbiens*, *Goldei* x *D. Phalaenopsis*)

We are able to offer this year plants of this fine, dark, selected variety.

5"—\$15.00

Free Literature ON DENDROBIUM CULTURE

"*Dendrobium Phalaenopsis*", by Robert M. Scully.

Published in the A.O.S. Bulletin, Vol. 21,

No. 11, 1952. Write Jones and Scully, Inc.

for reprints.

DISTINCTIVE MODERN DENDROBIUMS

Some of you may not be familiar with the new group of Dendrobiums which is becoming so popular. They are fine, strong-growing plants whose flowers last in perfection for several months. The majority of these bloom during the winter season, while others will flower throughout the year. To appreciate the merits of these Dendrobiums, you must grow some of them. During warm seasons, they can be grown outdoors in full sun.

NO. 509 ROI ALBERT (D. Antelope x D. D'Albertisii)

A beautiful "antelope type" Dendrobium; petals curl upward and appear as antlers. Flowers last for months and are a yellowish-green color. Flowering size.

5"-6"—\$15-\$25

NO. 542 D. JACQUELINE THOMAS (D. Gouldi, Tulagi x D. phal. Mauna Kea)

This is a most interesting cross, as it is made with the all-white form of D. phal. Mauna Kea as well as the pink-labellum type. D. Gouldi, Tulagi was collected from Guadalcanal and is one of the finest types in existence. These plants bear vivid lavender flowers of medium size. Free-flowering—each lead will make one or more long flower spikes after it has completed its growth.

4"—\$7.50

5"—\$10

6"—\$15

NO. 702 D. PRINCE AKIHITO (D. May Neal x D. Gouldi, Blue)

This is a most vigorous hybrid using the fine blue form of D. Gouldi. Flowers will be abundant—yellow to red-bronze with darker tips.

2½"—\$2.50

NO. 703 D. ETHEL KAWAMOTO, A.M.H.O.S. x D. HULA GIRL

This is a hybrid of fine parentage; flowers will be of yellow to bronze-colored combinations.

2½"—\$2.50

NO. 704 D. JOAN TANI x D. HAWAII NUI

Flowers of intense lavender on long sprays.

2½"—\$2.50

NO. 705 D. GRACE GOO x D. GOULDI, BLUE

Flowers will be dark lavender to yellow-bronze.

2½"—\$2.50

- NO. 706 D. OWENS (yellow) x D. GOULDI
Flowers may vary from yellow to blue.
2½"—\$2.50
- NO. 707 D. ETHEL KAWAMOTO, A.M.H.O.S. x D. GOULDI
Deep yellow with chocolate-colored tips.
2½"—\$2.50

SPECIAL OFFER

Nine Plants	\$20.00
One plant each of crosses Nos. 702 thru 710	
Five Plants	\$12.00
One plant of a cross, your selection.	

D. AGGREGATUM

D. AGGREGATUM VAR. MAJUS

The bright yellow flowers of this little Dendrobium are most welcome in any greenhouse during the spring months. It is a small plant—pseudo-bulbs are 3-5" long and the leaves are about the same size. The profuseness of blooms dwarfs the plants when they are in flower.

3"—\$7.50

4"—\$10.00

PHALAENOPSIS

SHOWER OF PHALAENOPSIS
AT ORCHIDGLADE,
FEBRUARY, 1953

We are listing only two crosses of Phalaenopsis as sales during the past few years exceeded our output. Unintentionally, we have greatly reduced our stock.

NO. 514 P. DAVID BOY (P. Schilleriana x P. Doris)

A remake of this lovely, pastel pink Phalaenopsis. A choice variety that is sure to be a favorite.

2"—\$2.50

NO. 630 P. VENUSTUS x (P. DORIS x P. SUMMER CLOUD)

This should be a white flower of fine shape, excellent conformation and substance.

2"—\$2.00

ONCIDIUMS

ONC. AMPLIATUM VAR. MAJUS

Many - flowered arching, branched scapes from 2-4 feet long. Canary-yellow "Dancing Girls" 1½" in diameter. Sepals blotched with red-brown. One of the finest of the Oncidiums. Flowering sizes.

\$10 - \$12.50 - \$15

ONC. KRAMERIANUM

Flowers look like large butterflies; yellow with reddish-brown markings. Will continue to flower from same spike for several years. A "must" for every collection. Flowering size.

\$7.50 - \$10

ONC. LANCEANUM (From Seed)

One of the finest species of the genera. Leaves large, light green peppered with dark dots. Flowers chartreuse spotted with chocolate-brown. Extremely heavy texture and will last for a month. Excellent as a decorative plant and for cut flowers.

2½" — \$2.50

3" — \$3.50

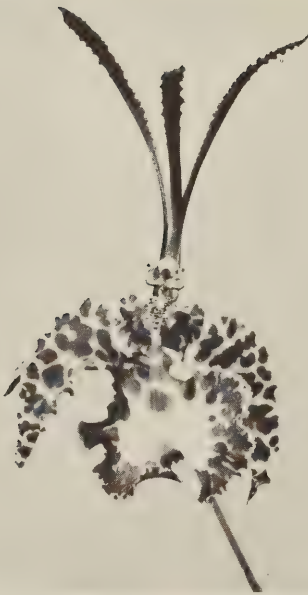

3½" — \$5.00

VANDAS

Vandas have taken a major place in the orchid world just in the past few years, and when you become acquainted with their merits, you, too, will want to include them in your orchid collection.

We have found the best potting media to be charcoal. The plants should be potted in larger pots than you would normally pot other orchids of similar size. They must be fed often—especially if soluble fertilizer is used.

We can ship Vandas to you bare root for potting on arrival—or, we will ship in pots if you instruct us to do so.

Plants priced at \$5 are in 5" pots in charcoal, the \$7.50 size range from 5-6" pots, and flowering-size plants are usually in 6-8" pots.

NELLY DIJKMAN ADMIRING SOME OF OUR MODERN VANDA HYBRIDS

NO. 275 V. SHERLYN WONG (V. tricolor, Broadview x V. Mem. T. Iwasaki)

A fragrant, free-flowering Vanda. Flowers are a definite improvement in size as well as in color over both parents and have heavy texture. Color is rich, butter-yellow with brown markings. Large plants in 10" pots, about 3' tall.

\$17.50 - \$25

NO. 356 V. WALTER FUJIKAMA (V. Manila x V. coerulea)

A fine-shaped flower of excellent blue color.

\$7.50 - \$10.00

Flowering size, **\$25 up**

NO. 357 RENANTANDA JACK WARNE (Ren. Storei x V. Sanderiana)

A tall-growing type with large stems of orange-red flowers borne on erect stems. Very striking.

Plants 8" tall, 12" spread, **\$12.50**

Plants 15-18" tall, 12-15" spread, **\$35.00**

Larger plants priced accordingly.

NO. 377 V. ONOMEA (V. Sanderiana x V. Rothschildiana)

One of the best Vandas. Color varies from mauve to blue and flowers have excellent shape. Flowering size.

\$40 up

NO. 378 V. PROFUSION (V. Sanderiana x V. Rothschildiana)

NO. 506

Called "Profusion" because of its free-flowering habit. White to light blue background, spotted.

\$7.50 - \$10.00

Flowering size, **\$15.00**

NO. 427 V. HONOLI (V. Sanderiana x V. Herziana)

We grow several thousand of this hybrid for cut flowers because of the wide variation in color and the free-flowering habit. Mature plants will flower 6-7 times a year. Color varies from blue to raspberry.

Medium-sized unflowered. **\$7.50 - \$10.00**

Flowering size, **\$15 up**

Selected for color and shape, **\$25 up**

NO. 428 V. DENISONIANA, HEBRAICA x V. SANDERIANA

Flowers are of a combination of brown colors and, in some cases, have a spot of pink on the sepal.

\$5.00 - \$10.00

Flowering size, **\$15 up**

NO. 429 V. CHIMEY WALKER (V. Flammerolle x V. Sanderiana)

Flat flower of fine form. Color varies from pink to salmon and raspberry.

\$7.50 - \$10.00

Flowering size, **\$25 up**

NO. 484 V. FRANKENSTEINIANA (V. Herziana x V. coerulea)

A free-flowering hybrid with blue to grey-blue flowers of the Herziana type; very desirable.

\$5.00 - \$7.50

NO. 493 V. LUZONICA

White, heavy flower with flushed magenta-purple markings and purple lip. Species from Luzon, Philippines.

\$5.00 - \$10.00

NO. 496 V. BOSCHI x V. DEAREI

Cream-colored flowers with heavier yellow marking toward the center of the flower. Medium-size and of very heavy substance.

\$5.00 - \$10.00

Flowering size, **\$15.00**

NO. 501 V. MANILA (V. Luzonica x V. Sanderiana)

One of the favorite hybrids producing pink-colored flowers.

\$7.50 - \$10.00

NO. 516 V. KALALAU (V. Paki x V. Ellen Noa)

This is a small-type Vanda; light yellow flower beautifully spotted with maroon; usually 5-6 flowers to the stem.

\$5.00 - \$10.00

Flowering size, **\$15.00**

NO. 518 V. BILL SUTTON (V. Sanderiana x V. Manila)

Fine-shaped flower in deep pink; similar to Sanderiana.

\$7.50 - \$10.00

NO. 519 V. KILOHANA (V. Manila x V. Rothschildiana)

Flowers will vary from deep pink to blue.

\$5 - \$7.50 - \$10

NO. 545 V. OHUOHU (V. Clara Shipman Fisher x V. Sanderiana)

One of the best of the new hybrids. Colors mostly in shades of pink.

Unflowered, 5-6", **\$15 up**

Flowered, 8", **\$40 up**

NO. 546 V. HONOLULU (V. Frank Scudder x V. Sanderiana)

A well-shaped flower of excellent size. Color will be variable.

\$7.50

NO. 547 V. EARNEST FUJINAGA (V. Caroline Robinson x V. Sanderiana)

An excellent producer with a very wide range of color combinations.

\$5 - \$7.50

8"—\$15.00

NO. 548 V. OHUOHU X V. ROTHSCILDIANA

Excellent-shaped, large flowers; color will vary from pink to blue.

\$7.50

NO. 606 V. ROTHSCILDIANA (V. Sanderiana x V. coerulea)

This is one of the favorites in the blue colors. Flowers are large and profuse in their flowering during the cooler season.

Unflowered, **\$15 - \$20**

Flowering size, **\$40 up**

MISCELLANEOUS

ANGRAECUM EBURNEUM

ANGRAECUM EBURNEUM

White flowers produced in abundance on long stems, similar to Cymbidiums. Winter.

Available fall '55.

3"—\$5.00

ANGRAECUM SESQUIPEDALE Madagascar

One of the curiosities of the orchid family. Flower is as if it were made of wax with a nectary 10" or 12" in length. Winter. Flowering size.

\$35.00

BRASSAVOLA DIGBYANA Honduras

The most outstanding species of the Brassos and the most used in the modern Brasso hybrids. Flowers are green to white-green and have a large fringed labellum. Flowering in Florida, March and April. Flowering size.

\$12.50

BRASSAVOLA NODOSA ("Lady of the Night") Central America

A pure white, small, Brasso-type flower, wonderfully fragrant at night, producing flowers in abundance and blooming several times a year. Flowering size.

\$5.00

BRASSAVOLA NODOSA

C. LABIATA Brazil

Good-sized flowers mostly in the darker tints of lavender; light controllable; fall blooming.

\$5.00 - \$10.00

C. SKINNERI Central America

Clusters of mauve flowers, 3-4" in diameter, sepals and petals nearly equal. Easy culture; prefers an abundance of sunlight. Feb.-Mar.

\$5.00

C. SKINNERI, ALBA Central America

This is the white form which is very interesting; flowers late winter or early spring. Large heads of flowers are produced on each new growth. Flowering size.

\$35.00

EPICATTELEYA LITTLE PLUM (C. Bowringiana x Epi. radiatum) No. 651

We have flowered only one of this cross and the lovely plum color prompted the name. The flowers are about twice the size of Epi. radiatum.

3 1/2"—\$10.00

CYCNOCHES CHLOROCHILON ("Swan Orchid")

A beautiful species from Panama, having fine flowers for corsages and displays. Produces large leaves during summer, then in late fall flowers are made on the heavy pseudobulbs—large plants producing as many as 15-20 blooms. Flowers are of a heavy, waxy nature, chartreuse in color and about 5" in diameter.

\$5.00 - \$6.00 - 7.50

Large specimen priced accordingly.

DIACRUM BICORNUTUM West Indies

A most interesting plant for a collection. Flowers start opening during February and continue for several months. White, star-like flowers spotted with purple are produced on long spikes. We recommend this plant for those who like fragrance in the greenhouse. The perfume of these blossoms is like that of orange blossoms and particularly fragrant in the morning. Flowering size.

\$10.00

EPIDENDRUM ATROPURPUREUM

Panama

Flowers are larger than the type. Sepals and petals brown with lighter borders; lip, reddish-mauve. April.

\$10.00

EPIDENDRUM ATROPURPUREUM

EPIDENDRUM MARIAE Mexico

This may well be termed an outstanding and little-known species. The flower has a beautiful, clear white lip—pale green toward the base. Sepals and petals are yellowish-green. Plant remains small yet flowers are very showy.

4"—\$7.50

EPIDENDRUM O'BRIENIANUM

This is a reed-type Epidendrum that wants an abundance of sunlight to produce its heads of brilliant red flowers. Can be trained against a wall and grown outdoors in full sun during the warm season. Remains in flower for months at a time. Spring. 3" flowering size—15-18" tall.

\$1.50

EPIDENDRUM HYBRID, YELLOW

Grown the same as above. Flowers are a beautiful yellow color. Spring. Flowering size.

\$2.00

EPIPHRONITIS VEITCHI

A hybrid of *E. radicans* crossed with *S. grandiflora*. The plant growth is similar to the Epidendrum, yet the flowers are larger and more brilliantly colored. 4" flowering size on tree fern.

\$7.50

GRAMMATOPHYLLUM MEASURESIANUM Philippines

A very interesting genus which produces long sprays of yellow, red-spotted flowers. Growth is similar to Cymbidiums. Spring. 7" flowering size.

\$25.00

PERISTERIA ELATA (The "Holy Ghost" Orchid) Panama

This is a large-growing terrestrial orchid preferring a semi-shaded location. In the fall it produces white, waxy flowers, the parts of which portray an image of the Holy Ghost—hence its common name. Application of liquid fertilizers are advantageous during its growing season.

\$10 - \$15

RENANTHERA COCCINEA

This orchid should be grown in full sun and in cooler climates, could be grown outdoors in the summer months. Large red sprays of flowers are produced in the spring or late winter. Very desirable in warmer temperate climates where it can be grown outdoors. Flowering size.

\$12.50

RODRIGUEZIA SECUNDA Trinidad

A small plant that adapts itself well to hanging as the scapes are somewhat arching. Flowers during late spring. A most interesting rose-pink color. Easy culture, prefers Cattleya house temperature and light. Flowering sizes.

3"—\$7.50

4"—\$10.00

VANILLA PLANIFOLIA Central America

This is the plant from which the commercial Vanilla is obtained. It is a vining type and can be trained to climb along the wall or vent shaft. Grown on tree fern.

5"—\$3.00

15" - 18" cuttings—\$2.50

A PLANT-A-MONTH

For those who are interested in a continuity of flowers in orchid plants throughout the year, we suggest that you order a plant or two from us each month. By so doing, you will be assured of continuous flowering in your collection every year.

We not only have Cattleya plants available, but many of the spray-type orchids, and offer you our services in selecting hybrids or species which will be suitable for your growing conditions.

ORNAMENTAL COMPANIONS

ANTHURIUM ANDREANUM

Anthurium Andreanum Hybrids

Flowering anthuriums are very interesting and a beautiful addition to any orchid house. Each flower lasts for several months and as a new leaf opens a new flower develops. Well-grown plants should always be in flower. This plant prefers diffused light, plenty of moisture, good drainage. Colors, red, salmon or pink.

6-7" pots—\$10, \$12.50, \$15

BROMELIADS

Increasingly becoming a favorite group of plants as an addition to the greenhouse or as a plant for indoor decoration. Closely allied to the pineapples, they show heavy foliage in a wide variety of colors and will grow and flower in diffused light.

AECHMEA FASCIATA

Light green plants banded with white tomentose stripes, making rosy-pink flower spikes.

AECHMEA ORLANDIANA

Shiny, light green foliage with red-brown stripes. Brilliant orange flower spikes.

5"—\$4.00

NEOREGELIA ZONATUS

Dark green foliage with brown-red stripes.

4"—\$2.50

VRIESIA CARINATA HYBRID MARIE

Light green foliage. Flat feather-like flowers are strikingly marked with orange-red and yellow, lasting for several months.

\$6.95

MORE THAN MEETS THE EYE

The experienced orchid grower knows that one cannot judge the potential quality of an orchid plant by its appearance. The physical appearance of the plant indicates only whether the plant is in good condition, but does not reveal the many hours of thought and the years of care which have been involved to produce quality flowers.

It is necessary, therefore, that you place full faith in the grower from whom you purchase your plants. That is why year after year, our customers call on us again and again to supply their needs. All of our experience is at your service and we hope you will join the ranks of our many satisfied customers.

FOLIAGE PLANTS

We are growers of Tropical Foliage plants as well as Orchids.

If you are interested in Tropical Foliage plants for indoor culture, we invite your correspondence.

ORCHID SUPPLIES

POTS

We are agents in the Miami area for orchid pots and offer our customers a complete stock. Pots must be picked up at our nursery except in the case of loads or part loads which we can arrange to have delivered direct from the pottery.

MISCELLANEOUS ITEMS

As an accommodation to our customers, we have the following items available: (Prices F.O.B. Miami)

TUBES AND CAPS (25 of each)	\$1.25 pkg.
POT HANGERS	single, 25c; double, .30 each
WIRE STAKES (GALVANIZED)	15" .04 each
	18" .05 each
	21" .06 each
	24" .07 each
STRING (green) SPOOL	.35 each

ALSO

LABELS, POTTING STICKS, INSECTICIDES

TREE FERN POLES, OSMUNDA

OSMUNDA FIBER

We are continually purchasing good quality osmunda fiber from the men who gather it in the Everglades.

We feel that quality osmunda is necessary to grow quality plants.

We will be pleased to ship to you the best grade of Florida osmunda fiber in lots of one or more bales.

‘‘PYRALIN’’ ORCHID LABELS

Make Permanent Accurate Records

By using these indestructible labels to identify your orchid plants, you will increase the value of your collection immeasurably.

LARGE SIZE

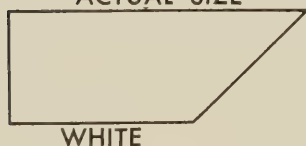

White, actual size \$1.60 per 100; \$15.00 per 1000

Weight 7 ozs. per 100

In addition to having a permanent record of the correct name of each of your orchid plants and any awards which they may receive, the reverse side of the labels offer an 'at hand' record for such pertinent information as potting data, flowering dates, source of purchase, description of blooms and so forth. This label is larger in size than others on the market, which allows ample space for such information.

CONDITIONS OF SALE

1. Orders will be filled in rotation.
2. No substitutions will be made on any order either as to size or variety without authorization.
3. We do **NOT** make a packing charge.
4. Unless otherwise advised, shipment will be made via Railway Express, charges collect. (All orders are F.O.B., Miami.) However, we recommend air express (or air freight on large orders) for shipments destined for countries outside of the United States and for shipments to be made during the winter months when there might be danger of the plants freezing en route.
5. **Claims** for damaged shipments must be filed immediately with the carrier by the consignee. We make every effort to pack carefully, and our responsibility ends when the shipment is accepted by the carrier.
6. On the authority of your local plant quarantine station, please advise us if there are any unusual requirements pertaining to the shipment of plants into your territory or country.
7. Our firm has been properly authorized to handle shipments to Hawaii. However, the customer must forward with his order his permit number which he must obtain from the Board of Commissioners of Agriculture and Forestry, Honolulu.
8. Unless your credit has been established with us, kindly enclose check, money order, or bank draft to cover payment of your order in full.
9. **NON-WARRANTY:** We, **JONES AND SCULLY, INC.**, give no warranty, express or implied, as to the productiveness of any of the plants we sell, and will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price of these plants.
